**WELICHEM BIOTECH INC.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
(Unaudited – Prepared by Management)  
THREE MONTH PERIOD ENDED AUGUST 31, 2006

---

**1. BASIS OF PRESENTATION**

These interim financial statements of Welichem Biotech Inc. (the “Company” or “Welichem”) have been prepared in accordance with Canadian generally accepted accounting principles on a “going concern” basis which assumes that the Company will realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The operations of the Company have been funded primarily by the issuance of share capital. Continued operations of the Company are dependent on the Company’s ability to complete financing or generate profitable operations in the future

As at August 31, 2006, the Company had working capital of \$2,025,893 and an accumulated deficit of \$5,914,779 resulting from losses in the current and prior periods. As the Company is in the early stages of the research and development of its products, the Company’s ability to continue operations is uncertain and is dependent upon its ability to obtain sufficient financing and improve operating results. The outcome of these matters cannot be predicted at this time.

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of annual financial statements. These interim financial statements should be read together with the audited financial statements and the accompanying notes included in the Company’s latest annual report for the year ended May 31, 2006. In the opinion of the Company, its unaudited financial statements contain all the adjustments necessary in order to present a fair statement of the results of the interim periods presented.

**2. NATURE OF OPERATIONS**

The Company was initially incorporated on May 26, 1995 pursuant to the Company Act of British Columbia under the name “Welichem Technology Corporation”. On July 26, 2000, Welichem changed its name to “Welichem Biotech Inc.” On November 1, 2004, Welichem amalgamated with Belltech Ventures Ltd. (“Belltech”), a Capital Pool Company under the policies of the TSX Venture Exchange (“TSXV”). The amalgamated company (“Amalco”) continued under the name Welichem Biotech Inc. and is a reporting company under the laws of the Provinces of British Columbia and Alberta. The former shareholders of Welichem, having received approximately 88% of the shares of the Amalco, have control, and therefore this amalgamation was accounted for as an acquisition of Belltech’s net assets by Welichem.

The Company is a biopharmaceutical company focused on the research and development and commercialization of new therapeutics for autoimmune / inflammatory diseases and cancer.

**3. SIGNIFICANT ACCOUNTING POLICIES**

The Company prepares its financial statement in accordance with Canadian generally accepted accounting principles which are presented in Canadian dollars. A summary of the significant accounting policies is as follows:

**Use of estimates**

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Cash equivalents**

The Company considers all highly liquid financial instruments with an original maturity of 90 days or less to be cash equivalents. Cash equivalents are recorded at the lower of cost plus accrued interest and market value.

### **3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**

#### **Short-term investments**

The Company considers all highly liquid financial instruments (e.g. guaranteed investment certificates, etc.) with an original maturity greater than 90 days to be short-term investments. Short-term investments are recorded at the lower of amortized cost or market value.

#### **Intangible assets**

Intangible assets consist of patent rights and applications costs incurred for the filing of patents. Patent rights and applications are amortized on a straight-line basis over ten years from the time of acquisition.

#### **Equipment**

Equipment is recorded at cost less accumulated amortization and is amortized over its expected useful life on the following basis:

Lab equipment	30% declining balance
Office equipment	30% declining balance
Leasehold improvements	Term of the lease

The Company uses the half year rule in the year of acquisition.

#### **Impairment of long-lived assets**

The Company reviews the carrying value of its intangible assets with a finite life and equipment for existence of facts or changes in circumstances that might indicate a condition of impairment. An impairment loss would be recognized when estimates of undiscounted future cash flows expected to result from the use of an asset and its eventual disposition are less than the carrying amount.

#### **Stock-based compensation**

The Company uses the fair value method for stock-based compensation granted to employees and non-employees of the Company and all direct awards of stock, in accordance with the CICA Handbook Section 3870 "*Stock-Based Compensation and Other Stock-Based Payments*". The fair value of stock options is determined by the *Black-Scholes Option Pricing Model* with assumptions for risk-free interest rates, dividend yields, volatility factors of the expected market price of the Company's common shares and an expected life of the options. The fair value of direct awards of stocks is determined by the quoted market price of the Company's stock.

#### **Foreign currency translation**

The Company maintains its accounting records in Canadian dollars.

Monetary assets and liabilities are translated into Canadian dollars at the year-end exchange rates. Non-monetary assets and liabilities are translated using historical rates of exchange. Revenues and expenses are translated at average rates for the year and exchange gains and losses on translation are included in operations.

**3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**

**Research and development expenses**

Research and development costs are expensed as incurred unless such development costs meet the criteria under Canadian generally accepted accounting principles for deferral and amortization. Development costs which meet generally accepted criteria for deferral are capitalized and amortized against earnings over the estimated period of benefit. As at August 31, 2006, the Company had not deferred any development costs.

**Government assistance and other subsidies**

Government assistance and other subsidies are recorded as either a reduction of the cost of the applicable assets or credited in the statement of operations as determined by the terms and conditions of the agreement under which the assistance is provided to the Company.

**Research and development tax credits**

Research and development tax credits are recorded as either a reduction of the cost of applicable assets or credited in the statement of operations depending on the nature of the expenditures which gave rise to the credits. Claims for tax credits are accrued upon the Company attaining reasonable assurance of collection from the Canada Revenue Agency.

Investment tax credits are accrued on qualifying expenditures when there is reasonable assurance that the credits will be recovered. Research and development tax credits were only available to the Company up to October 31, 2004, prior to amalgamation and becoming a publicly listed entity.

**Earnings (loss) per share**

Basic earnings (loss) per share are computed using the weighted average number of common shares outstanding during the year. Diluted earnings (loss) per share is calculated giving effect to the potential dilution that would occur if securities or other contracts to issue common shares were exercised or converted to common shares using the treasury method. The treasury method assumes that proceeds received from the exercise of stock options and warrants are used to repurchase common shares at the prevailing market rate. Diluted loss per share is equal to the basic loss per share as inclusion of common share equivalents securities are anti-dilutives as at August 31, 2006 and 2005.

**Income taxes**

Future income taxes are recorded using the liability method whereby future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using the enacted or substantively enacted tax rates expected to apply when the asset is realized or the liability settled. The effect on future tax assets and liabilities of a change in tax rates is recognized in income in the period that substantive enactment or enactment occurs. To the extent that the Company does not consider it more likely than not that a future tax asset will be recovered, it provides a valuation allowance against the excess.

**NOTES TO THE FINANCIAL STATEMENTS**  
(Unaudited – Prepared by Management)  
**THREE MONTH PERIOD ENDED AUGUST 31, 2006**

**4. CASH EQUIVALENTS AND SHORT-TERM INVESTMENTS**

**[a] Cash equivalents**

Cash equivalents includes \$2,070,622 of investment grade commercial paper with a weighted average interest rate of 4.02%. Of the total amount of cash and cash equivalents, \$50,523 (US\$45,180) are denominated in US dollars.

**[b] Short-term investments**

As at August 31, 2006, the Company held no short-term investments.

**5. EQUIPMENT**

	<b>Cost</b>	<b>Accumulated Amortization</b>	<b>Net Book Value</b>

**10. STOCK OPTIONS**

The Company has a 2004 Amended Stock Option Plan whereby the Company can grant stock options to directors, officers, employees and consultants to acquire up to 5,756,065 common shares of the Company.

In the period ended August 31, 2006, the Company granted 2,090,000 stock options to officers, directors, and employees. The options, being vested over an 18-month period, are exercisable at a price of \$0.10 per share for a period of five years from date of grant.

**WELICHEM BIOTECH INC.**  
NOTES TO THE FINANCIAL STATEMENTS  
(Unaudited – Prepared by Management)  
THREE MONTH PERIOD ENDED AUGUST 31, 2006

**10. STOCK OPTIONS (Cont'd)**

As at August 31, 2006, stock options were outstanding enabling the holders to acquire the following number of common shares:

<b>Number of Shares</b>	<b>Number of Options Exercisable</b>	<b>Exercise Price \$</b>	<b>Expiry Date</b>
200,000	50,000	0.10	January 31, 2011
1,950,000	487,500	0.10	May 7, 2011
2,090,000	522,500	0.10	August 31, 2011
150,000	37,500	0.15	July 30, 2011
240,000	180,000	0.20	July 31, 2008
150,000	37,500	0.20	January 30, 2012
188,100	141,075	0.22	December 31, 2009
300,000	225,000	0.22	March 15, 2010
241,500	181,125	0.22	May 25, 2010
50,000	37,500	0.23	May 25, 2010
50,000	25,000	0.23	June 1, 2010
<b>5,609,600</b>	<b>1,924,700</b>		

As at August 31, 2006, the weighted average remaining contractual life of the outstanding stock options is 4.8 years.

The following table summarizes the stock option activity under this Plan:

	<b>Number of Options</b>	<b>Weighted Average Exercise Price \$</b>
Options outstanding and exercisable on May 31, 2004	940,720	0.58
Options granted	330,000	0.33
	1,270,720	0.51

Balance, May 31, 2006	3,519,600	0.14
Options granted	2,090,000	0.10
Balance, August 31, 2006	5,609,600	0.13

**WELICHEM BIOTECH INC.**  
 NOTES TO THE FINANCIAL STATEMENTS  
 (Unaudited – Prepared by Management)  
 THREE MONTH PERIOD ENDED AUGUST 31, 2006

**10. STOCK OPTIONS (Cont'd)**

**Stock-based compensation**

The estimated fair value of options granted to executive officers, directors, employees and consultants is amortized over the vesting period of the stock options resulting in compensation expense of \$193,952 [2005 - \$16,250] during the 3-month period ended August 31, 2006. The offsetting amount was recorded as contributed surplus on the balance sheet [note 9]. This expense has been allocated to research and development expenses \$57,536 [2005 - \$5,535] and wages and benefits \$136,416 [2005 - \$10,715] on the same basis as cash compensation.

The fair value of all options granted has been estimated using the Black-Scholes Option Pricing Model with the following assumptions:

	<b>2006</b>	<b>2005</b>
	\$	\$
Risk-free interest rate	4.5%	3.4%
Expected life of options	5 years	5 years
Annualized volatility	200%	80%
Dividend rate	\$Nil	\$Nil

Option pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Changes in the underlying assumptions can materially affect the fair value estimates and, therefore, in management's opinion existing models do not necessarily provide reliable measure of the fair value of the Company's stock options.

**11. WARRANTS**

A total of 6,818,183 warrants expired on August 31, 2006.

As at August 31, 2006, 18,768,000 warrants are outstanding. Each warrant entitles the holder to buy one common share at \$0.20 until July 11, 2008.

	\$
Warrants outstanding as at May 31, 2004	—
Warrants issued during fiscal year ended May 31, 2005	6,818,183
Warrants outstanding as at May 31, 2005 and 2006	6,818,183
Warrants issued during period ended August 31, 2006	18,768,000
Warrants expired during period ended August 31, 2006	(6,818,183)
Warrants outstanding as at August 31, 2006	18,768,000

**WELICHEM BIOTECH INC.**  
NOTES TO THE FINANCIAL STATEMENTS  
(Unaudited – Prepared by Management)  
THREE MONTH PERIOD ENDED AUGUST 31, 2006

**12. RESEARCH AND DEVELOPMENT EXPENSES**

	2006	2005
	\$	\$
Subcontractors, supplies and materials <i>[note 10]</i>	424,552	462,759
Wages and benefits <i>[notes 10 and 18]</i>	193,752	106,800
	618,304	569,559
<b>Less:</b>		
Government assistance and other subsidies <i>[note 13]</i>	(3,182)	—
Research and development tax refund	—	—
	(3,182)	—
	615,122	569,559

**13. GOVERNMENT ASSISTANCE AND OTHER SUBSIDIES**

Under an agreement through the Industrial Research Assistance Program ("IRAP"), the National Research Council of Canada ("NRC") agreed to reimburse certain of the Company's allowable direct expenditures on the evaluation of anti-cancer agents on a cost matching basis. During the period, the Company was awarded a financial contribution of up to \$200,000 over a two-year period by NRC – IRAP for research and development of its novel anti-cancer compound, WBI 2100. The Company received a grant totalling \$3,182 [2005 - \$Nil] in this period.

**14. FINANCIAL INSTRUMENTS**

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The carrying value of cash and cash equivalents, short term investments, goods and services tax recoverable, research and development tax credits, and accounts payable and accrued liabilities approximate their fair value because of the short-term nature of these instruments. The Company is subject to currency risk due to the fluctuation of exchange rates between the Canadian dollar and the foreign currency denominated financial instruments. The Company is not subject to significant interest, or credit risks arising from these financial instruments.

**15. SEGMENTED INFORMATION**

The Company operates in one reportable operating segment, being the research and development of pharmaceutical products in Canada.

**WELICHEM BIOTECH INC.**
